

LQ: I wonder how many planets there are and what their names are?

What is the solar system?

What do you already know about the planets in our Solar System?

Let's watch a video to find out what each planet is like.

<https://www.youtube.com/watch?v=F2prtmPEjOc>

Today you will need some scissors, glue, planet ordering sheet and colouring pencils.

The solar system is all of the planets that orbit the sun.
How many planets are there? What are their names?

The solar system is all of the planets that orbit the sun.
What order are they in?

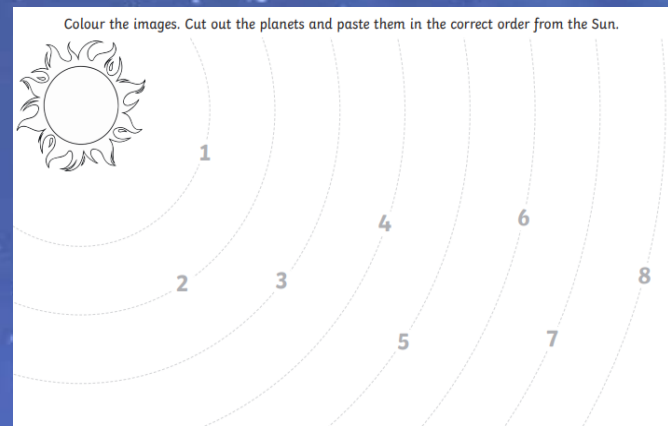

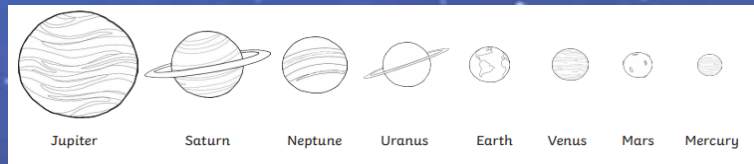

Activity!

Can you use what you have learned about the solar system, to put the planets in the correct order.

Cut them out, stick them in the right order and then you could colour them in the correct colours.

You will find the sheet under today's learning in the foundation subjects folder on the website.

Mercury
Venus
Earth
Mars
Jupiter
Saturn
Uranus
Neptune
